WORK EXPERIENCE

University of Texas Rio Grande Valley   **Edinburg, TX**

IT & web support/ Team Lead   *Jan 2018 - Feb 2021*

- Update and maintain various department websites using technologies such ass HTML/CSS/JS and wordpress
- Experience troubleshooting and resolving technical issues for web-based applications

PROJECT EXPERIENCE

Game Night   *Aug 2022 - Dec 2022*

- Organized and led front-end development, using react, for a team of 4 web developers, resulting in a more efficient workflow.
- Successfully implemented new software (Tailwind CSS) which cut development time by 30%.
- Utilized websockets to enable real time communication between the front and backend

Spotify Dashboard   *Jun 2021 - Finish Date*

- Successfully created a visual representation of Spotify data using their API, React, and NodeJS.
- Gathered data from the Spotify API to create meaningful visualizations that helped the user understand complex relationships within the data.
- Used React and NodeJS to create an interactive and responsive dashboard that displayed information in an easy-to-understand format.
